

# TOP 10 STATES BY GRAIN ENTRAPMENT CASES (2014-2023)

## Corn Belt States Dominate Entrapment Incidents

Grain bin entrapments are heavily concentrated in the U.S. Corn Belt region – a group of major grain-producing states. This region (including Iowa, Illinois, Indiana, Minnesota, Kansas, Missouri, Ohio, South Dakota, Wisconsin, and Nebraska) accounts for the majority of documented grain bin entrapment cases. The high density of corn and grain storage facilities in these states leads to more opportunities for entrapment incidents, making them a critical focus for safety efforts.
